

Intercontinental Hotels and Resorts - Next Generation Boardroom Ceiling Fixture

Location Toronto, Ontario
Designer / Architect Yustin Interiors Ltd.
Duration Sep 2003 - Oct 2003

Scope - Soheil Mosun Limited was contracted to fabricate and install (2) elliptical stainless steel ceiling fixtures that provided primary lighting and had hidden projection units with remote control accessibility built into them.

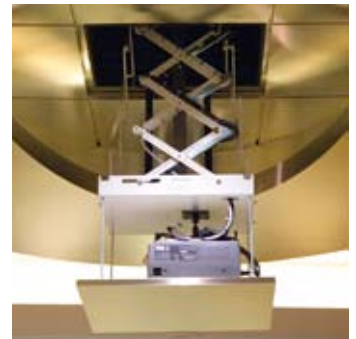

Highlights - Fixtures are XLS brush finish 316 stainless steel laid over acrylic panels then mounted to slabs using (13) 1/2" x 36" steel threaded rods. Pot lights and up-lights provide the central lighting feature to each meeting room. Internally, the fixture contains a remotely operated motorized drop down projection unit.

Precision crafted stainless steel

The brushed steel look adds a cool elegance to the boardroom

Hidden automated projector feature

The ceiling fixture installed in the next generation boardroom at the Intercontinental Hotel in downtown Toronto.
