

World Trade Center Abu Dhabi - Elevator Cab Interiors

Location Abu Dhabi, U.A.E.
Designer/Architect Foster + Partners
Duration Dec 2010 - Aug 2013

Scope - Soheil Mosun Limited was contracted to supply and install thirty five (35) elevator interiors for the World Trade Center, originally known as the Central Market project in Abu Dhabi, UAE.

Highlights - The elevator interiors feature acid etched laminated glass wall panels with antique bronze reverse painted finish, laminated to honeycomb aluminum. The glass emulates the bronze clad door, COP and front return panels, which are all patinated to an architecturally approved finish, then coated with a matte lacquer. The ceiling panels are fabricated 1/4" acrylic removable pans. Hand rails are orbitally finished, then patinated and lacquered.
